NodeJs

SASS

GIT

SEO

## PROFILE

Passionate Web Developer with experience in building responsive websites while keeping the aesthetic integrity. Experience in semantic HTML, CSS, JavaScript and modern frameworks like VueJs. Dedicated to continuing training and development skills by staying up to date with the latest technologies.

## PROJECTS

### GRUOPOMANIA

A social network app for Groupomania's employees which allows the users to share text, images & GIFs posts.

🐙 cadetCoder/Social-network

### THE TRAVEL APP

This Travel App is a Vue.js Single Page Applications (SPA's) with the Vue router. By making this web app interact with the user by dynamically rewriting the current page rather than loading entire new pages from the server.

Preview – The Travel App

### VINTAGE CAMERA

Vintage camera shop is an e-commerce web application. This application uses the JavaScript programming language to interact with users and external services such as API.

🐙 – cadetCoder/Vintage-Camera

### TIC TOC TOE

I use vanilla JavaScript, HTML and CSS on this simple application.
